DETAILED ACTION

The following action is taken after consideration of the appeal brief filed 9/12/03.

The finality of the previous office action is withdrawn in view of the new grounds of rejection presented below.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 19, 20, 28, 31-34 are rejected under 35 U.S.C. 102(e) as being anticipated by Baba ('162).

The body of this rejection is incorporated herein from paragraph 3 of the office action mailed 4/16/03.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 21-24, 26, 27, 29, 30 and 36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baba in view of Clare et al. ('286).

The body of this rejection is incorporated herein from paragraph 5 of the previous office action mailed 4/16/03.

Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Baba in view of Clare et al. ('286) as applied to claims 21-24, 26 and 36 above, and further in view of official notice.

The body of this rejection is incorporated herein from paragraph 6 of the previous office action mailed 4/16/03.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 19 and 28 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for specific arrangements such as those group of elements as depicted for example in figure 2, does not reasonably provide enablement for every conceivable structure for achieving the stated result of adaptively generating an output as set forth by the claims. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims. See *In re Hyatt*, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983).

Allowable Subject Matter

Claim 35 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The reasons for the indication of allowable subject matter of claim 35 were presented in paragraph 8 of the office action mailed 4/16/03.

Response to Arguments

Applicant's arguments filed 9/12/03 have been fully considered but they are not persuasive. Examiner acknowledges the definitions provided by applicant, however these definitions are not a one-to-one correspondence with the claimed language. The claims set forth an apparatus for adaptively generating. By definition an "adaptive system" is a "system that is capable of altering its behavior based on certain features of its experience or environment", Microsoft Press Computer Dictionary, (Third Edition, 1997, Microsoft Corporation). Clearly Baba teaches a system that alters its behavior based on features of its experience or environment. Even by applicants own definition the system of Baba provides an arrangement that automatically changes the influence of initial parameters that improve the performance of the system. The discrete controller as claimed is deemed satisfied by Clare et al. for reasons already provided. Applicants arguments concerning claim 25, pulse width modulation (PWM) is acknowledged however Phan et al. ('345) already cited by applicant teaches that a PWM technique used in an ADAPTIVE CONTROL PROCEDURE is well known to control the actuator.

Conclusion

Applicant's amendment filed 2/19/03 necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this

final action.
